LN46D503 46" Class (45.9" Diagonal) LCD HDTV with 1080p resolution.**SPECIFICATIONS**

Clear Motion Rate (CMR) is Samsung's more comprehensive and accurate way of measuring TV motion performance than the previously used Hz measurement. The previous system measured only the refresh rate of a TV panel. A TV's ability to deliver clear motion clarity goes beyond a panel's refresh rate. A CMR measurement is achieved by calculating the TV chipset and the backlight in addition to the panel's refresh rate, resulting in a more realistic motion clarity metric. Simply put, the higher the CMR, the clearer the picture quality.

Dynamic Contrast Ratio 30,000:1

Full HD 1080p resolution: Experience a greater level of detail and clarity in the picture than you ever thought possible.

FEATURES**Wide Color Enhancer**

ConnectShare™ JPEG: JPEG does exactly as its name implies – allows you to easily connect your MP3 player or digital camera to your TV and share music, videos and photos. Simply connect your digital devices and enjoy.

Game Mode: Enhances dark areas, sharpens the picture, speeds up the image processing response and enhances the sounds of your games. Picture and sound quality optimized for the special needs of gaming systems at the touch of a button.

Swivel stand

CONNECTIONS

2 HDMI®

1 USB: version 2.0

Stand-by power consumption < 1 watt

Component Video input: 1
